Gordon Mason  
Director of A & R  
Capital Records  
44 Wall Street, Suite 5900  
New York, NY 10005

Dear Mr. Mason:

I am delighted to have found your **A & R Agent/Recruiter** career opportunity in Craig's List. I come recommended by Harold Lawton your own PR Coordinator. He has no doubt mentioned me already. I am looking to move back to the New York City area very soon. Even more importantly, I have always followed my passions in my career. To me a career without joy is merely a daily drudgery. Music has always been the sunshine on my shoulders in life. When I to combine my passion for music with my proven sales and marketing expertise, our long-term success really would have no limits.

Honestly, all I need is a chance to get back into the music business. After my close examination of your excellent websites and a few phone calls to colleagues in the know, I must say I am so impressed. I can honestly tell you I have been a great Capital Records customer since Frank Sinatra signed with you. I am genuinely excited about this opportunity and I know my enthusiasm will not wear off. I hope I will soon be a significant contributor for you with all my negotiating, recruiting, sales and marketing abilities.

At last, it seems I have rediscovered a former career path to replace the dead and buried mortgage business. I am certain music will never go out of style. ***My attached résumé details all my sales and marketing awards. To back all those testimonials up, I have 13 six-figure W-2 forms, Letters of Commendation signed by the CEO and photos of my trophy walls in my home office.*** I have prospered working on commission for your direct competition. Thus, you know you can count on me.

I am ready to get back into the groove. Please call me for an interview at **713.555.2404**. Challenges always bring out the best in me because I am a time tested and proven top producer. With a review of my résumé you will see I am exactly who you want working for you. Call me anytime **today** on my cell phone number above because I will help you earn larger annual bonuses. (*Ask Harold, he knows.*) Thank you.

Sincerely,

*Thomas L. Dennehy*

P.S. One of my other specialties is **Ingenuity**. I designed and developed three solutions, which all ended up earning U.S. Patents and millions in new revenue for Citibank. ***Would you believe my sales production and innovations helped my boss earn two promotions in only seven years?***
