NOTEWORTHY ACHIEVEMENTS

- ▷ Supervisor stated on 2003 GlobeOp Financial Services Performance Review, *"Tom's outstanding work in complex financial analysis, customer service, automating reports, auditing and compliance was the major reason why client Man Investments (a global alternative investment firm) increased their business from five funds and \$285 million in 2002 to 15 funds and \$2.8 billion in 2003. The client credited Tom with initiating this remarkable gain citing they were very pleased with his performance on very challenging assignments."*
- ▷ Manager stated, *"Client Man Investment Group continued to credit Tom's expert financial analysis as the main reason why they continued to send us new business. This past year they increased their funds under our management from 15 funds and \$2.8 billion to 21 funds and \$3.6 billion. Tom was clearly the catalyst, as he was repeatedly credited with exceeding their expectations. His overall annual performance marks are among the highest I have ever given out..."* on 2004 performance review.
- ▷ **Saved Zurich Financial Services at least \$20,000 annually** in payroll by developing an Excel spreadsheet and Macros solution to automate the process of identifying monthly variances on the balance sheets of 1000 derivative products. Previously, this required a week's worth of labor from a Senior Staff Accountant each month.
- ▷ Earned very close to the highest performance rating possible from supervisors for the three previous years on annual performance reviews averaging 4.74 out of 5 for "exceeds expectations."
- ▷ **Streamlined and optimized an entire financial system** in 2008 for Thomas Lloyd Global Asset Management as a Senior Staff Accountant. Migrated all data and reporting to QuickBooks Pro from outdated Excel software. **Improved overall departmental efficiency by 75% and SEC compliance by 50% easily saving at least \$25,000 in labor annually.**
- ▷ Inherited a department with a high error rate, missed deadlines and difficulty maintaining compliance at Citigroup in 2005, rewrote all the valuation procedures to determine NAV, developed checklists and new standard operating procedures. **Results, reduced error rates dramatically, met deadlines for all clients and improved overall efficiency by 44%.**
- ▷ Discovered that one VIP commercial client was being overcharged on performance fees every quarter, as our accounting system was not generating the proper result. Researched 12 months back to reconcile the previous year's account statements and identify the true root cause. **Results, this saved the client \$100,000 per year and more importantly preserved the relationship at risk worth millions annually to Citigroup.** Halted this from affecting other clients.
- ▷ **Achieved 100% compliance on annual SEC audits for 2006 and 2007** for Thomas Lloyd GAM.
